Professional Summary

Enthusiastic Computer Science student with strong proficiency in Python, Java, C#, and JavaScript. Passionate about web and mobile application development. Seeking an internship or entry-level software developer role to leverage coding and problem-solving skills in a dynamic tech environment.

Languages

- **English**: Written - Native | Spoken - Native
- **French**: Written - Intermediate | Spoken - Intermediate

Technical Skills

- **Programming Languages**: Python, Java, JavaScript, C++, Swift, C#
- **Web Technologies**: HTML, CSS, PHP
- **Databases**: MySQL, SQLite
- **Tools & Technologies**: Git, GitHub, Microsoft Visual Studio, Visual Studio Code, IntelliJ IDEA, Xcode, Android Studio, FireBase, SQL Server Management Studio, Oracle
- **Development Methodologies**: Agile, Scrum

Education

Diploma of College Studies in Computer Science
Lasalle College, Montreal, QC
Expected Graduation: May 2025
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Management Systems, Software Engineering, IOS Mobile Applications, Android Mobile Applications

Diploma of Secondary Education
John Rennie High School, Montreal, QC
Graduated: June 2016

Projects

Disease Contact-Tracing Application (C++)

- Developed an application that manages and tracks disease movement through patients using efficient data structures.
- Utilized linked lists and hash tables to ensure optimal performance and scalability.
- Led a small team of classmates in planning and implementation.

Cinema Management System (Java, AOOP)

- Developed a POS system for cinema management that allows users to create customer accounts and add/delete movie showtimes.
- Integrated Java Swing for the user interface and implemented object-oriented programming principles to enhance system modularity.
- Collaborated with a team to refine the system's features based on user feedback.
